About me

Owen Jiang

ojiang@caltech.edu

owen.jiang@berkeley.edu

handsondeck.vercel.app

University of California, Berkeley

California Institute of Technology

(Rising) Undergraduate Sophomore

GPA: 3.889/4.0

Education

September 2026 –

August 2025 – September 2026

September 2022 – December 2024

June 2023 – July 2023

September 2021 – June 2025

California Institute of Technology

University of California, Berkeley

Harvard Division of Continuing Education

Stanford University

Lexington High School

Experience

May 2026 – Present

Research Student

Surface engineering with titanium dioxide

Thomas Schutzius

UC Berkeley – Department of Mechanical Engineering

Multiphase Thermo-fluidics & Surface Nanoengineering Group

February 2026 – Present

Student Assistant

Scintillator Library for Nuclear Applications

Bethany Goldblum

UC Berkeley – Undergraduate Research Apprentice Program

Lawrence Berkeley National Lab

Bay Area Neutron Group

February 2026 – May 2026

Undergraduate Laboratory @ Berkeley Paul L. Richards

Physics Innovation Laboratory Student Superuser

August 2025 – Present

Monsoon Progression Dynamics

William Boos

UC Berkeley – Earth and Planetary Science

Atmospheric Dynamics at Berkeley

June 2025 – August 2025

MIT

Research Intern with Professor Glenn Flierl

March 2024 – August 2025

Innobridge Institute

Research and Teaching Assistant (Paid)

February 2020 – June 2025

All the Sprouts (AtS)

(Community Science Education)

Founder, Manager, Instructor, Webmaster

Conferences

IEEE OCEANS 2025 International Conference First and corresponding author and oral presenter

Sponsored by the UN Decade of Ocean Science

IEEE MetroSea 2024 International Workshop First author and oral presenter

Sponsored by the UN Decade of Ocean Science

Publications

O. Jiang and G. Flierl, "AI-Aided Systematic Numerical Modeling of North Atlantic Gyre Surface Conditions with Multiple Deep-Learning Architectures," OCEANS 2025 Brest, BREST, France, 2025, pp. 1-10

doi: 10.1109/OCEANS58557.2025.11104654.

O. Jiang, M. Y. Shalaginov, et al., "Modeling of the North Atlantic Gyre's Meridional Overturning Circulation with Neural Nets," 2024 IEEE International Workshop on Metrology for the Sea; Learning to Measure Sea Health Parameters (MetroSea), Portorose, Slovenia, 2024, pp. 89-94

doi: 10.1109/MetroSea62823.2024.10765669.

"Human-Focused Design Improvements for Autonomous Self-Driving Vehicles"

<https://www.oxjournal.org/human-centred-design-improvements-for-avs>

Coursework

UC Berkeley

Computer Architecture (Machine Structures)

Circuits & Devices

Electromagnetism, Waves, and Optics

The Structure and Interpretation of Computer Programs

Data Structures

Discrete Mathematics and Probability Theory

Signals, Dynamical Systems, and Information Processing

Solid Mechanics

Properties of Materials

Thermodynamics

Mechanics and Relativity

Numerical Analysis

Engineering Molecules

Harvard Extension/Summer School Multivariable Calculus

Linear Algebra and Differential Equations

Ordinary Differential Equations

MITx

Aerospace Engineering: Astronautics and Human Spaceflight

Circuits and Electronics

General Chemistry

Shing-Tung Yau Mathcamp

Advanced Linear Algebra

Analysis and Topology

Mathematical Physics

Stanford Summer School

Structure and Reactivity of Organic Molecules

Skills

Software

Linux, LaTeX, Typst, Git, PyTorch, TensorFlow,
DaVinci Resolve

Programming

Python, Julia, C++, Java, HTML/CSS/JS,
FORTRAN, Lisp/Scheme, SQL

Scuba Diving

NAUI-Certified

Personal Projects

Hands On Deck

handsondeck.vercel.app

Engineering for Sustainability

youtube.com/@Hands-OnDeck

Honors and Awards

Henry David Thoreau Scholar

Department of Energy (DOE)

National Science Bowl (NSB)

2021 National Champion

2025 National Runners-Up

National Ocean Sciences Bowl (NOSB)

WGBH: High School Quiz Show

2024 State Champion

2024 and 2025 Champion

**Armed Forces Communications and Electronics
Association (AFCEA)**

Lowell Student Scholarship

Lexington-Concord Chapter Scholarship

Languages

English

French

Chinese

Latin
