(Rising) Undergraduate Sophomore at **UC Berkeley/Caltech**

GPA: 3.889/4.0

Relevant Work Experience

Department of Energy: National Renewable Energy Laboratory

Science Undergraduate (Paid) **Laboratory Internship** (*Upcoming*)

Energy consumption and demand response

Berkeley: Multiphase Thermofluidics & Surface Nanoengineering Group

Undergraduate **Research Student**

Surface engineering with titanium dioxide

Berkeley: Bay Area Neutron Group (Lawrence Berkeley National Lab)

Undergraduate Research Apprentice Program - **Student Assistant**

Programming library package for nuclear scintillators

Berkeley: Atmospheric Climate Dynamics Group

Research Intern

Monsoon progression onset dates and dynamics

MIT: Bringing Computation to the Climate Challenge (BC3)

Research Intern

Climate data emulation

Innobridge Institute

(Paid) **Research and Teaching Assistant**

All the Sprouts (allthesprouts.org)

Founder, Manager, Instructor, Webmaster

Self-founded community science educational program

Conferences

IEEE OCEANS 2025 International Conference

IEEE MetroSea 2024 International Workshop

Author and oral presenter of two papers

Skills

Software

Linux, LaTeX, Typst, Git, PyTorch, TensorFlow, DaVinci Resolve

Programming

Python, Julia, C++, Java, HTML/CSS/JS, FORTRAN, Lisp/Scheme, SQL

Interested in

Applications of machine learning and AI in finance, data science, and engineering
